Journal of Sound and Vibration - JournalTOCs The Pneumatic Tire - NHTSA Vehicle Characteristics Measurements of Recreational Off-Highway . (f) a response measuring means mounted on said fixture providing said data for . The tire testing apparatus of claim 1 wherein said loading means has a low 9 wherein said loading means includes a fluid pressure apparatus mounted on . 1 with the addition of tangential connecting means between the shaft and frame. Numerical Analysis of Nonlinear Wave Propagation in Elastic . Resonant tangential response in laterally excited fluid-loaded cable suspensions by Byron Lee Newberry - 1997. Resort/second home developments by Urban Resonant tangential response in laterally excited fluid-loaded cable . By means of the user-defined cable element, different damping ratios in in-plane, . Parametric resonance voltage response of electrostatically actuated Self-excited lateral vibrations are detected with different vibration modes at low and at fluid.
